From Monday October 16. to Thursday October 19. 1676.

Naples, Sept. 22.

THis day arrived here three *Spaniſh* Men of War from *Cadiz*, having on board 500 Land Soldiers, which are to be ſent to *Palermo*. It is ſaid that ſeven *Spaniſh* Men of War more are coming hither. We do not as yet hear of any action of the the *French* Fleet.

Ratisbonne, Sept. 30. On the 22, the Envoyes of the Electors of *Mentz* and *Saxony* parted hence for *Munich*, being appointed by the Colledge of Electors to preſs the Elector of *Bavaria* to furniſh with all ſpeed his proportion of men and monies. The Diet has lately received a Letter from the Nobles and Inhabitants of the Dutchy of *Bremen*, praying them to interpoſe their offices with the Emperor, that they may be maintained in the Priviledges they formerly enjoyed under their Archbiſhops; yeſterday the Diet entred upon the debate of the matter, and reſolved that the neceſſary proofs of what is alledged be produced, before they come to any determination.

Dantzick, Octob. 10. We have Letters of the 30 paſt from the Kings Camp near *Zorawno*, which ſay that the *Ottoman* Army lay encamped very near it; that ſeveral skirmiſhes had hapned, and particularly the day before, on the 29 paſt, when the whole right Wing of the *Poles* compoſed of the Troops of *Lithuania*, was engaged till the night concluded the Combat, a great many were killed and wounded on both ſides, but the Fight was not deciſive, both Armies remaining the night following and the next day in their Camps, in expectation of a new Engagement; which the King of *Poland* would endeavor to defer till the arrival of 10000 men, whom he expected to reinforce his Army.

Vienna, Octob. 11. Yeſterday Count *Mansfelt* arrived here with Letters from the Duke of *Lorrain*, about the diſtribution of the Army into Winter-quarters. Within two dayes the Emperor is expected here from *Eberſdorf*, and the 15 inſtant will declare his intended Marriage, which is to be ſolemnized at *Lintz*, on the Confines of *Bavaria*. A conſiderable Body of General *Cop's* Army is ordered to be forthwith ſent into *Hungary* to reduce thoſe Rebels; and this week we have advice that General *Straſoldo* and the Count *de Bargotzy* have had ſeveral advantages over them, having killed 400 near *Kalo*, and amongſt them two of the chief of their party. The Count *de Schafgotz* is declared Adminiſtrator of *Brieg*, *Lignitz* and *Wolaw* for the Emperor, to whom thoſe Principalities are devolved by the death of the laſt Prince.

Copenhagen, Octob. 13. From *Stockholme* they write, That two Men of War are fitting out to Convoy ſeven Ships that are coming with Proviſions from *Liefland*; That the day for the meeting of the Aſſembly of the States is prorogued till the laſt day of this month, when the King will be preſent at the opening of it. Monſieur *Guldenſpar* is ſent with new orders to Admiral *Tromp*, and the Sieur *Bielke* is appointed with four Men of War to watch the *Swediſh* ſhips that are coming from *Lieſland*. Monſieur *Guldenleuw* is expected here from *Norway*, and General *Baudits* is ordered to go and command there in his abſence. The King is not yet returned hither, having reſolved firſt to ſee his Troops diſpoſed into Winter-quarters, and the Fort which he is building near *Laholm* finiſhed.

Elſeneur, Octob. 14. The weather proving fairer than is uſual in this ſeaſon, hath retarded the Kings coming hither, but it is certain his Majeſty will be here either this night or to morrow. Monſieur *Guldenleuw* having burnt *Wennersberg*, is at preſent with his Army near *Friderichſtadt* in *Norway*. This day the *Dutch* Men of War that have been this Summer in the *Danes* ſervice, ſailed hence towards *Holland*, and yeſterday arrived here ſeveral Merchantmen from thence under the Convoy of Captain *Koot*.

Hamburgh, Octob. 20. The 12 inſtant the Gariſon of *Demmin* marched out, being 700 ſtrong. Paſſengers come hither from *Stetin*, ſay, that the Elector of *Brandenburgh* had brought his great Cannon before that place, and had begun to batter it, and reſolved to aſſiſt in perſon at the Siege, until he were Maſter of the Town; after which it is not doubted but *Straelſont* will accept of the offer made it of returning to its former condition of a free Imperial City. Yeſterday the Mareſchal *Horne* parted hence towards *Lubeck*, to ſee the Gariſon of *Staden* embarked there for *Riga*, whither it is to be tranſported according to the Capitulation for the Surrendry of the place. The 12 inſtant the King of *Denmark* decamped from *Laholm*, and that night lodged at *Engerholm*. The Levies that are making here under Colonel *Schonenberg* for the *Danes*, proceed with good ſucceſs, their Foot having been exceedingly diminiſhed, by the Sickneſs which hath been very great both in the *Swedes* and *Danes* Army this Summer.

Strasburgh, Octob. 15. The Armies continue in their old Poſts near *Baſle*; the *Suiſſe Cantons* have ſent thither 6000 men, as well to reinforce that Gariſon, as to guard the paſſages where either of the Armies might enter into their Countrey. The *Imperialiſts* having built two Bridges to paſs the *Rhine*, the Duke of *Luxemburg* hath recalled the ſeveral detachments of his Army that were abroad to join him, in order to the oppoſing the paſſage of the *Imperialiſts*. Four days ſince the Marquis of *Baden Dourlach*, General of the Forces of the Empire, arrived here, going to the place of his Reſidence at *Dourlach*. Yeſterday the Count *Caplers* parted hence with a great Sum of money which was lately remitted hither by Bills of Exchange from *Vienna*, for the payment of the Army, which, it's thought, will not keep the Field much longer.

Ditto, Octob. 16. The *Imperialiſts* continue encamped between *Nyenbourg* and *Baſle* on the other ſide of the *Rhine*, without attempting as yet to paſs it. In the mean time Officers from both Armies are permitted freely to enter into the Town, and provide themſelves with neceſſaries; the Magiſtrates have ſent Deputies as well to the Duke of *Lorrain*, as to the Duke of *Luxemburg*, to deſire they may continue their Neutrality. The Marquis *de Foyeuſe* is returned to *Schleſtadt*, from whence the *French* have cauſed their Magazine of Proviſions to be tranſported to *Briſac*, for the ſupply of their
